Updated Notice: New Restrictions in Senior Living Facilities

As a precautionary measure to protect our residents, and under advisement from the American Health Care Association and Governor Holcomb, we are temporarily prohibiting all non-essential visitation at our community. This protective measure will stay in effect until the State Department of Public Health, the American Health Care Association and Governor Holcomb advise otherwise.

Essential visitors are defined as individuals not employed by the facility that assist in the coordination of care for the resident (medical professionals, caregivers, lab techs, x-ray personal, emergency responders, etc.). All essential visitors will be screened by a medical professional upon entry.

Visitors that would like to make special arrangements to visit their loved one are encouraged to contact the Executive Director. Arrangements will be made on a case-by-case basis and should be made in advance. Any individual who is allowed to visit is restricted to the patient's room.

Visitors are not allowed if they present with any of this criteria:

- o Display signs or symptoms of illness, especially respiratory illness
- o Have traveled internationally or been in contact with someone with a respiratory illness in the past 14 days
- o Reside in a community with a known COVID-19 case
- o Those who are less than 18 years of age

We thank our visitors for their cooperation with these temporary protocols and for your understanding as we work to ensure the safety and well-being of all who live in, work at and visit our communities.
