

## ON-SITE DIALYSIS CARE PROGRAMS

**ST. MATTHEWS**  
CARE CENTER

**HILLCREEK**  
REHABILITATION AND CARE

We're excited to go live with our new on-site dialysis care program and we're hoping you will share in our enthusiasm.

### BENEFITS OF ON-SITE DIALYSIS

- Reduced Risk of Exposure during COVID-19
- Reduced Risk of Hospitalization or Re-Hospitalization
- More Tolerable Solution Making Rehab Progress Possible
- One-Stop-Shop / No More Transportation Nightmares
- Recovery Time Averages Less than One Hour
- Potential Reduction in Medications
- Improved Disease Management including CHF, Hypertension and Anemia
- Reduction in Fluid Overload

#### Disadvantages of Traditional Out-Patient Settings during COVID-19

- Treating vulnerable patients in group setting
- Sterilizing between transports to reduce infection
- Limited availability due to social distancing requirement
