

Lotus

PATHWAY TO ADDICTION RECOVERY
AT CLIFTON OAKS CARE CENTER

Introducing Lotus Pathway to Addiction Recovery at Clifton Oaks Care Center.

WHAT IS LOTUS?

Lotus Pathway to Addiction Recovery is a supportive community for those who require medical supervision and skilled nursing care and are struggling with drug addiction. We are committed to providing a path to recovery in a warm, friendly environment.

The lotus symbolizes how the mind can be transformed. The lotus begins its life in muddy waters and seeks the light as it grows. Battling addiction may seem like a bleak journey, but with the right support system and plan of care, our residents rise above the darkness and regain quality of life.

ARC PARTNERSHIP

As an Addiction Recovery Care (ARC) partner, our role is to provide quality nursing care in a safe environment, with access to ARC programming and adherence to their policies until the client is clinically ready to graduate to the next step in recovery.

For more information about ARC, visit www.arccenters.com.

ADMISSION CRITERIA

All clients must be approved for admission by both Clifton Oaks Care Center and ARC.

Admission criteria includes:
