

EXCEPTIONAL LIVING CENTERS

Meet Holly

My name is Holly Witkemper and I am the Executive Director at Morning Breeze Retirement Community & Healthcare Center in Greensburg, Indiana. I choose a career in long-term care because I wanted to follow my grandmothers career path in Long Term Care. I loved spending time with her on the continuing care floor at Decatur County Memorial Hospital. She taught me how important it is to care for our senior community.

My first healthcare position was Activity Assistant at Heritage House of Greensburg in 1992. Over the years I have been an Activity Director, Director of Social Services, Business Office Manager and Director of Admissions. I started my employment with ELC as an Administrator in Training. ELC saw in me the desire to be a successful administrator and gave me the opportunity and tools to make my dreams come true.

Healthcare is the most rewarding part of my life. I love that when I have a bad day there is a team of staff and a building full of residents always there to take the blue away. It is so great to watch someone admit needing our help and go home and be successful.

If you have a desire to serve in healthcare we need you. We are in uncertain times and there is no better time to find the perfect fit within healthcare and join the most rewarding career.
